### *Mour Oum Souhayl*

Pour apprendre la langue arabe il existe moult méthodes. J'ai donc opté pour la méthode d'enseigner à l'enfant par groupe de 3 lettres à la fois, qui seront apprises dans le désordre et qui ne se ressemblent pas. Cela sera plus facile pour l'enfant de distinguer par la suite la lettre *ب* du *ت* et du *ث* par exemple. Idem pour *ح* *خ* *ج*
